

# ACCESSORIES

Complemented your designs and safety with the right accessories.

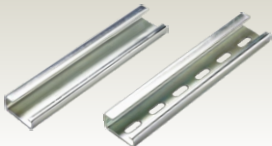

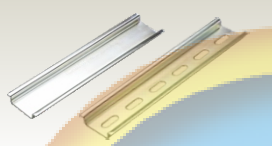

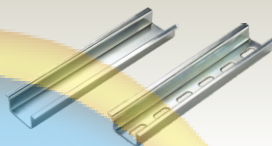

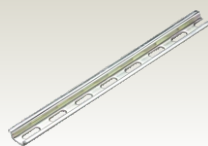

## MOUNTING RAILS

Most of Connectwell's Terminal Blocks and Interface Modules are designed to be mounted on DIN Rails (Channels) that can be fixed easily on panel boards and other equipment.

Connectwell offers three types of steel mounting rails: Din 32, Din 35 and Din 15 that comply with European standards EN 50 0035, EN 50 022 and EN 50 045 respectively. The rails are zinc plated and chromate passivated. According to the DIN VDE 0611 part 3, steel mounting rails are permissible as grounding bus bars (PE function) but do not have the PEN function.

All mounting rails are available in standard 1 m and 2 m lengths. Cut to length mounting rails with holes / slots as per customer requirement are also available on request.

| Din 32 Rail [Din 1]<br>(32 x 15 x 1.5 mm)   |                | Din 35 Rail [Din 3]<br>(35 x 7.5 x 1.0 mm)  |                | Din 35-15 Rail [Din 1]<br>(35 x 15 x 1.5 mm)                                       |                | Din 15 Rail [Din 2]<br>(15 x 5 x 1.0 mm)  |              |

## MOUNTING BASE

CMTB35 is used to assemble components on a Din Rail. The mounting base has 4 holes of  $\text{Ø}4.3\text{mm}$  and 2 holes of  $\text{Ø}5.5\text{mm}$ . CA902 can be used to fasten Din 15 Rail on to the Din 32 Rail.

## MOUNTING HANDLE

The Mounting Handle is used for easy and quick mounting of 10 Terminal Blocks on a Din Rail. The Terminal Blocks can be lifted from the packaging box with the help of this tool.

|                     |                     |                 |

## MOUNTING BRACKETS

These are used for better access and increased clearance from the surface of the panel. These brackets are zinc plated & chromate passivated.

**CA603** - Can be used to install mounting rails at an angle of 45° to the panel surface.

**CA703 / CA803 / CA903** - Are used for fixing mounting rails at different heights.

| Cat. No. | Std. Pack |
|----------|-----------|
| CA603    | 25        |

| Cat. No. | Height(H) | Std. Pack |
|----------|-----------|-----------|

| CDL4USP  | 54 x 55.5 x 6 mm |
| CDL4UNSP | 57 x 58 x 6 mm   |

## END CLAMPS

End Clamps help to secure the entire Terminal Block assembly on the DIN Rail. End Clamps should be fixed on both sides of the Terminal Block assemblies. These End Clamps are designed to fix on DIN 32, DIN 35 and DIN 15 rails. The Polyamide series End Clamps have suitable recesses to accommodate a group marker holder and marking tags for group identification. The steel parts are Zinc plated and Chromate passivated. The CA102 and CA202 are large End Clamps for heavy duty applications. CA103 is a screwless End Clamp which can be snapped on to the Din Rail.

| Cat. No.            | CA302             | CA402             | CA502               | CA602          |

# GROUP MARKER HOLDER

Two variants of Group Marker Holders are available for identification of Terminal Block assemblies:

**GMH1, GMH2, GMH3, GMH4, GMH5 and GMH8** are to be mounted in the grooves of End Clamps.

CA509/G1 marking tag can be used with these marker holders or can be directly mounted on the end clamp.

**GMH6 & GMH7** can be mounted directly on Din Rails. A sticker / paper needs to be inserted in the slot which is covered by a transparent plastic sheet.

# MARKING TAGS

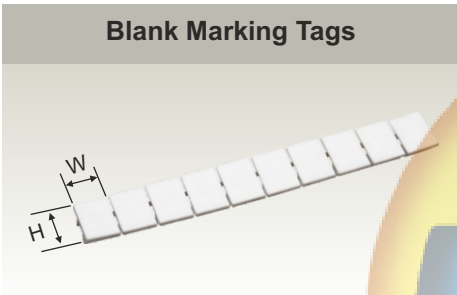

## 'K' Series Marking Tags

The quick to fix 'K' series Marking Tags facilitate identification of Electrical circuits in a Terminal Block assembly. This in turn makes the maintenance of individual components quicker and hassle free. The tags come with a large surface area providing better visibility. All 'K' series tags are available as strips in which an individual marker can be easily separated. CA509/K6F and CA509/K9F marking tags are continuous strips of 60 mm and 90 mm length respectively. The Marking Tags are available in both printed and blank versions. The printing can be horizontal or vertical in 2 or 3 digits, alphabets or symbols or a combination of these depending on user's requirement.

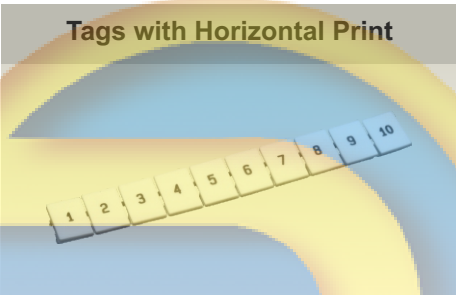

For ordering pre-printed marking tags, the following pattern should be followed:

For a strip of marking tags for CTS2.5UN Terminal Blocks marked horizontally from 1 to 10: CA509/K5/H/1-10 1 2 3 4 5 6 7 8 9 10

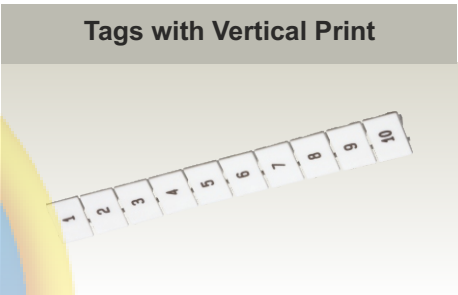

For a strip of marking tags for CTS4UN Terminal Blocks marked vertically with alphabet A: CA509/K6/V/A A A A A A A A A A A

**Blank Marking Tags**

**Tags with Horizontal Print**

**Tags with Vertical Print**

## Warning Label

Warning label that can be mounted on top of the Terminal Block for giving visual identification, it also makes an entire DIN Rail Terminal Block assembly completely shock proof.
