6 sq.mm Disconnect & Test Terminal Blocks

The CDS6U/FTS is feed through for Disconnect & amp; Test Terminal Block is used for measuring, control and regulatory circuits. they provide a clear functional advantage for devices having utility instruments and associated transformers. Separate testing points facilitate insertion of test probes. Disconnection is archived by means of a slide link operated with a screw driver in CDS6U/FT, the insulates test point screw system(TPSLS) is integrated.in CDS6U/FT Terminal block is a standard feed through terminal block.

TECHNIC	CAL DATA		ORDERIN	IG INFORMATION
