CSCP2.5T2

2.5 sq.mm Spring Clamp Panel Mount Terminal Blocks with multiple connection points.

These blocks are an excellent solution for extremely compact wiring applications. The Terminal Blocks are "modular" and can be stacked to form multi pole assemblies. The stacked assemblies are mounted on the panel surface using mounting End Plates at both the ends. Insulated External shorting links can be used for cross connection. In CSCP2.5T2 Terminal Blocks, there are two connection points each on both sides
