Stainless Steel Cable Ties

Stainless steel cable ties are the most reliable and reputed brand delivering high quality engineered cable ties which provide solutions to all your clamping requirements. Cable ties are used in varied industries and perform host of other clamping solutions worldwide.

Stainless steel cable ties are uniquely designed and subjected to rigorous physical and chemical testing to ensure compliance with the international quality standards and safety of your clamping functions. The cable ties have burr free and rounded edges which makes them suitable for fast and easy applications. The cable ties are designed to withstand harsh environments and can be operated manually or by hand tool.

Cable ties are offered in both AISI 304 (EN DIN 1.4301) and AISI 316 (EN DIN 1.4401) stainless steel grade. The cable ties are available in coated & uncoated types. The cable ties can be used for indoor, outdoor and underground applications.

RUJUTA CORPORATION pioneers in providing engineering solutions including designing, testing, validation and stimulation that can modify standard clamping solutions or develop new solutions for your specific project needs.
